Dear Barbara

Thank you very much for your donation to Support 4 Sight for £88.03. I understand that this was raised by the Spartak Under 11's Football Team playing with a football with a bell in it. Of course, when you are visually impaired it might be the only way that you could continue to play a game you love, by being able to hear where the ball is instead of seeing it. I hope the players all enjoyed themselves.

Support 4 Sight endeavours to help and advise local visually impaired people get out into the community and continue to live their lives to the full. It is particularly traumatic when a person is first diagnosed with sight loss and we hope that we make a big difference helping them to regain their confidence.

Your very generous donation will help Support 4 Sight continue the services we are able to provide.

Well done to everyone involved.

Yours sincerely

Margaret Dawson
